HCP19
Hospital Pharmacy

11:30am–7:00pm

Registration for Suppliers & Sponsors

11:30am–4:00pm

Provider Registration

This special Provider Registration is for all Hospital Pharmacy Directors and GPO Executives. Relax and enjoy a light meal & networking with your peers as you register for the conference. Lunch will be served between noon and 3:00pm.

sentry data systems™

12:00pm–4:00pm

Supplier Showcase

Select Suppliers will showcase their products, services and technology. Showcases are designed to provide a limited number of supplier attendees with an opportunity to demonstrate their products, services and solutions for the provider executives. To maximize this experience for everyone, only Providers and Supplier attendees from companies with a showcase exhibit will be permitted into the showcase area. Please contact us to learn how you can participate.

2:30pm–2:50pm

Supplier Orientation

All Suppliers are welcome to attend this orientation meeting. This informational orientation meeting is an excellent opportunity for first time Supplier attendees to gain a clear understanding of our conference, specifically the **reverse** expo and how it works.

4:15pm–5:30pm

Provider Orientation & Sponsor Spotlight

All Hospital Pharmacy Directors and GPO Executives are required to attend this orientation meeting, which will provide important information pertaining to the conference and introduce a few of our sponsors.

5:30pm–6:30pm

Welcome Reception & Networking Event

6:30pm–8:00pm

Hospitality Suites Hosted by our Sponsors *Providers ONLY*

8:00pm–9:30pm

Hospitality Suites Hosted by our Sponsors *All Attendees*

7:00am–6:00pm

Registration Desk Open

Our Registration Desk will be staffed throughout the conference. If you have questions or need assistance with anything, please stop by and let us know. We are happy to help.

7:00am–8:00am

Breakfast

8:00am–9:30am

Opening Remarks & Keynote Address

Transformational Leadership in High Reliability Organizations

Admiral Mike "Wizzard" McCabe

Mike is a historic leader with a passion for innovation and change. As head of all naval aviation, Admiral Mike McCabe oversaw some of the deepest technological shifts and changes at the U.S. Navy. He ensured thousands of military personnel would be ready for these transformations and managed the budgets that supported these key innovations and changes. His career was driven by one motivation: sustaining a culture of excellence while caring for his people. He is eager to share these leadership values of care, action and innovation with today's decision makers.

Mike is a highly decorated, experienced leader, former admiral, and corporate CEO who teaches others to lead and coaches teams to reach their potential. He draws inspiration from his father, a World War II Navy pilot who was killed deploying to the Korean War. Eighteen months after graduating college, Mike was flying combat missions under the mentorship of one of the original instructors of the real "Top Gun" Navy fighter weapons school, shooting down MiGs together. He later became the Executive Officer of the school, and eventually consulted for the hit movie "Top Gun".

Continued on next page

Continued from previous page

Mike has command experience at every operational level of the Navy, including the Commander of the US 3rd Fleet. In these commands, he was able to achieve excellence while suffering no operational loss of life. His combat decorations include the Silver Star and Distinguished Flying Cross. Mike also served as the Director of Air Warfare for the Navy with oversight to the entire Naval Aviation budgets. He was serving in this capacity in the Pentagon when the 9/11 terrorist attack struck the building directly below his office. During that tour, he was largely responsible for the next generation of naval aviation technology, aircraft and aircraft carriers. Following Navy retirement, he became the CEO/President of a large commercial charter airline. He grew the airline into a multi-hundred-million-dollar business. He left the airline and retired a second time to battle cancer. Having survived air combat, the 9/11 attacks, and cancer, Mike embodies the spirit of "Glad To Be Here" and lives in a "pay it forward mode" bringing his storied experience and passion to helping teams and leaders.

Learning objectives:

After attending this presentation, attendees will learn to:

- *Drive continuous improvement in healthcare environment from quality, safety and service delivery that will directly influence the patient experience. This presentation will define a framework that drives self responsibility, team focused outcomes, and ongoing review of process that results in continuous improvement.*
- *Foster the proper team dynamics and employee engagement to increase productivity, improve recruitment and retention of employees and provide the right environment for development. This presentation will outline the key components found in high performing teams that create, implement and sustain a higher level of performance compared to environments where these components are missing. The presentation will also provide a way to measure current status to create a gap analysis.*
- *Define a quality assurance process that deemphasizes fault finding and highlights best practices to reinforce positive behavior. The debrief dynamics becomes a positive versus a negative experience which then will translate into the improvement of delivery of services.*

9:30am–9:45am

Coffee Break

9:45am–10:45am

Educational Session

A Comprehensive Drug Diversion Program: Top 10 Critical Components Every Institution Should Have

Christopher R. Fortier, PharmD, FASHP

Christopher Fortier is the Chief Pharmacy Officer at the Massachusetts General Hospital in Boston, MA. At MGH, he oversees a staff of 400 and all on and off-campus inpatient, clinic, and retail pharmacy services. Chris is the Chair of the Partners Healthcare Chief Pharmacy Officers Council and works to move pharmacy strategic initiatives forward at the Partners system-level.

Dr. Fortier received his Doctor of Pharmacy degree from the University of Connecticut in 2003 and completed both a PGY-1 Practice Residency and a PGY-2 Health-System Pharmacy Administration Residency at the Medical University of South Carolina Medical Center. Additionally, Chris serves as an Adjunct Associate Professor at the University of Connecticut School of Pharmacy, University of North Carolina School of Pharmacy, Northeastern University School of Pharmacy, and the Massachusetts College of Pharmacy.

Learning objectives:

After attending this presentation, attendees will learn to:

- *Describe the various national hospital diversion trends and data specific to healthcare provider drug diversion and abuse*
- *Discuss the organizations experience and lessons learned around an internal DEA investigation and audit*
- *Outline multidisciplinary collaboration strategies around a hospital-wide control substance compliance and surveillance program*
- *List the critical state and federal control substance regulatory requirements for program compliance*
- *Share essential components and key strategies of a comprehensive and proactive drug diversion program*

11:00am–12:00pm

Educational Session

Opioid Stewardship: Keys to Developing a Successful Program

Co-Speaker Melissa Blair, PharmD, BCPS, FCCP, FASHP Senior Editor, TRC Healthcare
Melissa Blair, PharmD, has over 25 years of direct patient care, education, and leadership experience in both acute and ambulatory health-system settings, including serving as Clinical Manager and education coordinator of an 800-bed health-system. She currently serves as the Senior Editor for TRC Healthcare, a leading provider of evidence-based, cutting edge medication advisory and education services. Dr. Blair is active in ACCP, ASHP, and presently is Chair of the Pharmacotherapy Council for BPS.

Co-Speaker Neda Pourdeyhimi, PharmD, BCPS

Neda Pourdeyhimi is a pharmacist at New Hanover Regional Medical Center (NHRMC) in Wilmington, NC. She earned her Bachelor of Science from NC State University and Doctorate of Pharmacy from Wingate University and is board certified in pharmacotherapy. Neda primarily works on an inpatient surgical unit where the majority of her patients have undergone general, orthopedic trauma, or neurosurgical intervention. Many of these surgical patients receive opioids in the perioperative period, putting Dr. Pourdeyhimi in the unique position to help evaluate the appropriate use of opioids both inpatient and at discharge. Neda is an integral member of the NHRMC Opioid Task Force, which aims to fight the opioid epidemic within the community by developing and implementing opioid stewardship tools. She also is an active member of the hospital's antimicrobial and P&T committee.

Learning objectives:

After attending this presentation, attendees will learn to:

- Develop health system-wide strategies to minimize unnecessary opioid use
- Evaluate the use of multimodal strategies for acute pain management
- Promote opioid safety during transitions of care

Strategies for Meeting Joint Commission Medication Management Standards Requirements in 2019

Jeannell Mansur

Jeannell Mansur is Principal Consultant for Medication Management and Safety for Joint Commission Resources and Joint Commission International. In this role, she provides direction to hospital leaders on medication safety design, medication system optimization and technology implementation to support patient safety and effectiveness. Her expertise in lean six sigma and change acceleration performance improvement methods and tools is of immense value to organizations that are seeking to implement effective and sustainable improvement to challenging issues. Also in her role as Principal Consultant, Dr. Mansur provides expertise to the Joint Commission enterprise on medication system themes.

Dr. Mansur has been recognized for her distinguished work by the designation of Fellow with the American Society of Health-System Pharmacists and the American Society for Medication Safety Officers. She is a voting member of the United States Pharmacopeial (USP) Convention.

Dr. Mansur completed training with the Institute for Healthcare Improvement in medication safety under the direction of Drs. Donald Berwick and Lucian Leape. The learning from these leaders and the experiences from this Institute resulted in the crafting of a systems-based approach to medication safety that has molded Dr. Mansur's philosophies.

Learning objectives:

After attending this presentation, attendees will be able to:

- *List new requirements for medication processes in 2018 and 2019*
- *Describe strategies to comply with the most frequently scored medication-related standards*
- *Identify key areas of focus for the survey process with sterile compounding*
- *Discuss changes in pain assessment and management standards and roles for pharmacists to support new requirements for pain management and safe opioid use*

2:45pm–4:45pm

The Hospital Pharmacy Directors and GPO Executives host the exhibit booths in this very unique **reverse**expo.

Pharmacogenomics: Coming to a Hospital Near You

Christina Aquilante, PharmD, FCCP

Christina Aquilante, PharmD, FCCP, is Professor in the Department of Pharmaceutical Sciences at the University of Colorado Skaggs School of Pharmacy and Pharmaceutical Sciences in Aurora, Colorado, USA. Dr. Aquilante received her Doctor of Pharmacy from the University of North Carolina at Chapel Hill and completed a pharmacy practice residency at Shands Hospital at the University of Florida. Following residency, she completed a post-doctoral fellowship in cardiovascular pharmacogenomics at the University of Florida College of Pharmacy.

Dr. Aquilante joined the University of Colorado School of Pharmacy faculty in 2004. She maintains an active clinical pharmacogenomics research program focused on cardiovascular diseases and has over 50 peer-reviewed publications and book chapters. Dr. Aquilante is a member of the Colorado Center for Personalized Medicine (CCPM). In this capacity, she is the Co-Chair of the Pharmacogenomics Implementation Committee Colorado (PICColo), a system-wide clinical pharmacogenomics implementation initiative at University of Colorado Health.

Dr. Aquilante is passionate about pharmacogenomics education. At the University of Colorado, she developed and teaches required clinical pharmacogenomics courses for all entry-level PharmD, North American-Trained PharmD, and International-Trained PharmD students. Recently, she developed a Pharmacogenomics Continuing Education Certificate Program for practicing pharmacists, physicians, and nurses. She has delivered this Certificate Program to over 600 health care professionals worldwide since January 2017.
