# S VIRTUAL suppliers showcase

**OPEN DURING THE ENTIRE CONFERENCE**

Health Connect Partners' Virtual Supplier Showcase provides a format for hospital decision makers to research, learn about, and connect with suppliers in a unique virtual space. Each virtual booth features the supplier organization and highlights their solutions, products, and technologies. This platform is designed to give hospital providers and supplier organizations the ability to directly interact in a customized environment.

In addition to providing the platform, Health Connect Partners is focused on driving high-quality traffic to each Virtual Supplier Showcase booth—just like we do during our in-person Supplier Showcase events. The Virtual Supplier Showcase is open for visits any time during the conference dates and is a required stop on the way to the educational sessions. Each provider executive will be encouraged to participate in a fun, interactive virtual experience allowing them to learn and request information along their journey through the Virtual Supplier Showcase.

Best of all: the Virtual Supplier Showcase platform allows provider executives to directly request information, and schedule meetings with suppliers through our virtual meeting platform. Providers have a choice of requesting a meeting during the Virtual Reverse Expo or selecting a specific date and time for an on-demand meeting outside of the Virtual Reverse Expo times.

*To maximize this experience for everyone, only Providers and Supplier attendees from companies with a Virtual Showcase will be able to access the showcase area.*

## ON-DEMAND educational session ONE

All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.

### keynote address

#### Live Inspired

#### John O'Leary

In 1987, John O'Leary was a curious nine-year-old boy. Playing with fire and gasoline, John created a massive explosion in his home and was burned on 100% of his body. He was given less than a 1% chance to live.

This epic story of survival was first showcased in his parents' book, *Overwhelming Odds*, in 2006. Originally printing 200 copies for friends and family, his parents have sold 60,000+ copies. It was this book that first invited John to embrace his miraculous recovery and share it with the world.

John inspires 50,000+ people at 100+ events each year. He speaks to companies and organizations across industries, such as: sales, healthcare, safety, marketing, finance, faith, education, and insurance.

Consistently described as "the best speaker we've ever had," John receives nearly 100% of his engagements from referrals. His schedule is a testament to the power of his message and who he is as an individual. His emotional story-telling, unexpected humor, and authenticity make each of his presentations truly transformational.

John is a two-time #1 National Bestselling author. His first book *ON FIRE: The 7 Choices to Ignite a Radically Inspired Life* has sold 250,000+ copies and been translated into 12 languages. *IN AWE: Rediscover Your Childlike Wonder to Unleash Inspiration, Meaning and Joy* published in May 2020 with many saying it is the message we all need right now.

John's award-winning *Live Inspired* Podcast has more than 2.5 million downloads and enjoys world-class guests like Brené Brown, Mitch Albom and Shawn Achor.

John considers his greatest success to be his marriage to his wife Beth, their four children, and his relationships with friends and family.

#### After attending this presentation, attendees will be able to:

#### learning objectives

- Identify how changing the way they ask questions transforms the answers they receive – and the lives they lead
- Improve personal accountability for actions, attitudes and outcomes
- Better understand their impact within their team and re-ignite their passion for their profession

All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.

## 503As and The FDA: Understanding Sterile Compounding Laws and Policies

### **Katrina K. Harper, PharmD, MBA, BCPS, BCSCP, DPLA**

Katrina K. Harper, PharmD, MBA, BCPS, BCSCP, DPLA has more than 20 years of healthcare experience in several clinical and leadership roles. She is currently the Director of Pharmacy Services for AIS Healthcare's Ophthalmic Division.

Prior to joining AIS Ophthalmics, she was the Clinical Pharmacy Director for the nation's largest member-driven, health care performance improvement company where she served as a subject matter expert in the areas of drug compounding, medication safety, regulations, quality, and compliance.

Her previous experiences include being a Pharmacy Manager for a community pharmacy chain, Director of Pharmacy of a cardiovascular specialty hospital, and Medication Safety Officer for a safety-net academic county hospital. She has served as chairperson and adjunct faculty for an ASHP-accredited Pharmacy Technician program at a community college. Katrina is also a recipient of the Texas Society of Health-Systems Pharmacist's Larry C. Nesmith Pharmacist Recognition Award.

She holds a Doctorate of Pharmacy degree from Xavier University of Louisiana College of Pharmacy and a Master's degree in Business Administration from the University of Texas at Arlington College of Business Administration. She is also a Board Certified Pharmacotherapy Specialist, a Board Certified Sterile Compounding Pharmacist, and holds numerous other certifications.

### After attending this presentation, attendees will learn to:

- Summarize FDA's oversight of traditional compounding pharmacies according to Section 503A of the Federal Food, Drug, and Cosmetic (FD&C) Act
- Describe Insanitary Conditions at Compounding Facilities as defined by the FDA
- Summarize the FDA's policy on Compounding Drugs Using Bulk Drug Substances under Section 503A of the FD&C Act
- List interim guidance for industry by the FDA that may impact pharmacy practice

**ON-DEMAND**  
**educational session THREE**

*All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.*

## **Confronting and Overcoming Bias in the Healthcare Industry**

### **Luther Wright, Jr. J.D., B.S.**

After graduating from Vanderbilt University School of Law, Luther Wright, Jr. began his career with a general practice firm in the litigation section. He spent the first several years of his legal career practicing in the general litigation area before joining the Labor & Employment team. He has significant experience in the areas of labor and employment law, corporate business litigation and complex litigation, including class action and collective action lawsuits. He typically represents management in all forms of employment discrimination litigation, including litigation based on federal anti-discrimination statutes, state statutes and common law, violence in the workplace, Fair Labor Standards Act claims and independent contractor disputes. Luther is a member of Ogletree's Diversity and Inclusion Action Team that provides timely client advice and guidance on diversity related matters. Luther also devotes a significant amount of his practice to day-to-day client advice, general supervisor/employee training, training and advising on diversity and inclusion issues and workplace violence issues, and also acts as the Assistant Director of Client Training as part of the Ogletree Deakins Learning Solutions ("ODLS") team. ODLS provides employee and supervisor training in a variety of formats, including in-person training, training by webinar/webcasts and customized video training products.

Luther has experience representing banks, national gaming companies, automotive companies, government contractors, hospitals, restaurants, retail establishments, closely held businesses and entertainment companies in employment and business litigation. He has represented clients in litigation based on federal and state anti-discrimination laws, state tort litigation, personal injury matters involving commercial vehicles, claims under the Equal Credit Opportunity Act, class action and multi-plaintiff litigation. He has practiced before Tennessee trial courts throughout the State of Tennessee, Federal District Courts in Alabama, Arkansas, Georgia, Illinois, Kentucky, Minnesota, New Mexico, Oklahoma, Tennessee and Wisconsin, and the United States Court of Appeals for the Sixth and Eleventh Circuits.

A highly evaluated public speaker, Luther has spoken before numerous industry groups, professional associations and clients across the country on topics ranging from implementation of employee discipline to respect in the workplace. His 1995 Law Review Article, *Who's Black, Who's White and Who Cares: Reconceptualizing the United States' Definition of Race and Racial Classifications*, 48 Vand. L. R.513 (1995) has been excerpted in more than 10 books and has been consistently cited in scholarly publications and textbooks since its publication.

### **After attending this presentation, attendees will learn to:**

- Reveal unconscious biases
- Interrupt unconscious biases
- Address the issue of Microaggressions
- Develop strategies for improving cross-cultural communication and relationships organizationally and individually

*All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.*

## Preparing for an HRSA 340B Audit

### **Rob Nahoopii, PharmD, MS, 340B ACE**

Rob Nahoopii has frontline 340B experience as a Regional Director of Pharmacy within a 22-hospital health system. His responsibilities included regional oversight, and direct responsibility for a 395-bed DSH hospital, in-house retail pharmacy, and contract pharmacy arrangements. For the last eight years, he has been providing 340B external independent compliance audits and 340B gap analyses for 340B covered entities across the country through his role as CEO of Turnkey Pharmacy Solutions, and after Turnkey's acquisition by SpendMend, as SVP of Pharmacy Services. Rob has personally conducted over 300 independent 340B audits for covered entities, and has supported over 20 HRSA 340B audits for clients.

Rob obtained his Doctor of Pharmacy from the University of Utah College of Pharmacy. After graduation, he completed a two-year pharmacy administration residency with Intermountain Healthcare and a Master of Science in Pharmacotherapy in the pharmacy administration tract at the University of Utah. He has also completed 340B ACE training with Apexus. Rob has served on the Apexus DSH council and was a 340B University faculty member for over three years.

### After attending this presentation, attendees will be able to:

#### learning objectives

- List three compliance risks seen in recent HRSA audits
- Identify recent changes to the HRSA data request
- Execute a game plan for reducing risk of a finding during an HRSA audit

All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.

## The Usability of Real-Time Prescription Benefit Data and its Impact on Provider Behavior

Co-presenter

### **Megan Holsopple, PharmD, BCPS - Clinical Product Director, RxRevu**

Megan Holsopple is the Director of Clinical Product Development at RxRevu. She works closely with the analytics, clinical, and product teams on technology strategies focused on improving patient medication access and cost transparency.

Megan has over ten years of experience in the academic hospital setting where she worked as a clinical coordinator in formulary management at the Center for Medication Use and Finance at Froedtert and the Medical College of Wisconsin. In this role, Megan was involved with medication management across a 5-hospital network with an emphasis on implementing evidence-based practice at the point-of-care in various technology platforms.

Megan completed her PGY1 pharmacy practice residency at SCL Health and a specialized PGY2 residency in medication-use safety and policy at University of Utah Hospital and Clinics. She holds her Doctorate in Pharmacy and her Bachelor of Science in Health Sciences and Chemistry degrees from Creighton University.

She is an active member in various professional organizations. She has served two terms in a leadership position as a network facilitator for the Drug Policy and Pharmacoeconomics group within ASHP's Section of Clinical Scientists and Specialists. Her professional interests include health information technology and medication safety. Outside of work, Megan enjoys spending time with her family, traveling, and enjoying all of the outdoor activities her home state of Colorado offers.

Co-presenter

### **Christie Callahan - Chief Operating Officer, RxRevu**

Christie is responsible for product development and operations at RxRevu, with a focus on growth.

Christie brings more than ten years of experience in the healthcare space with a dedicated focus on interoperability, technology innovation, and process improvement. She has developed and delivered the strategy for technology transformation in some of the largest healthcare operations including specialty and mail pharmacies, prior authorization departments, and call centers. Additionally, Christie led efforts at CVS/ Caremark to maximize usability and adoption of ePA and Real-Time Prescription Benefit.

Prior to joining RxRevu, she was the Vice President of Strategy and Innovation for Members Services at CVS Health and, previously, a consultant at Bain and Company.

A graduate of the University of Illinois Urbana-Champaign, Christie holds a Bachelor of Science in Industrial Engineering. She loves to travel, discover new restaurants, and spend time with her family. She resides near Chicago with her husband Matt and daughter Claire.

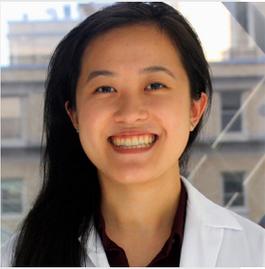

### After attending this presentation, attendees will learn to:

#### learning objectives

- Define Real-Time Prescription Benefit and the current state of its use
- Discuss provider perceptions of Real-Time Prescription Benefit as a value-added service
- Identify key strategies to optimize Real-Time Prescription Benefit and for health systems to drive adoption

**ON-DEMAND**  
**educational session SIX**

*All educational sessions will be released at 8:00am Central on Monday, June 14th, and will be available to view on-demand until Thursday, July 1st. Approximately 3–6 hours of Enduring CE credit will be provided for this program; CE details coming soon.*

**Intravenous Drug Delivery Systems:  
Balancing Safety, Cost, and Shortages****Lena Kim Tran, PharmD, BCCCP**

Lena Tran is a board-certified critical care pharmacist practicing at Brigham and Women's Hospital in Boston, MA.

After completing a critical care residency, Lena's primary practice areas include the intensive care unit where she helps to manage drug therapy, and the emergency department where she assists with emergent cardiac and rapid responses. Lena is also part of a novel pharmacy allergy service to help provide rapid drug desensitization for patients with unique hypersensitivities.

In addition to clinical involvement, Lena has published several peer-reviewed research articles regarding implementation of a vial transfer device at an academic medical center, intravenous push vs. piggyback lacosamide administration, intravenous levothyroxine stewardship, desmopressin for hyponatremia, progesterone hypersensitivities, and more. She has been involved in creating multiple drug administration guidelines and protocols.

Her interests include medication safety process improvement, drug optimization, trauma, toxicology, and acute care bedside medication therapy.

**After attending this presentation, attendees will learn to:****learning  
objectives**

- Review pros and cons of various intravenous (IV) drug delivery systems
- Identify barriers affecting drug product acquisition and utilization
- Evaluate implementation of a vial transfer device at a single-center institution
